Filed: October 23, 1997

For:

METHOD FOR ANALYZING DNA)

FROM A RARE CELL IN A CELL **POPULATION**

AMENDMENT

Assistant Commissioner for Patents Washington, D.C. 20231

/ 08956349

Sir:

Responsive to the Examiner's Action mailed March 19, 1998, Applicants respectfully request reconsideration of the above-referenced application in view of the following amendments and remarks. A petition to extend the time for response for three months from June 19, 1998, until September 19, 1998, accompanies this Amendment.

Please amend the application as follows:

09/22/1996 RNAGAT 00000129 201430

01 FC:202 41.00 CH

IN THE CLAIMS

Please amend the claims as follows:

- (Amended) 1. A method for separating a rare cell from other cells in a cell population comprising:
 - (a) applying cells from the cell population to a [surface] solid support;
- (b) [determing] determining the location of the rare cell on the [surface] solid support and overlaying the cells with a solidifiable material, wherein a cover layer is formed;
- illuminating the cover layer with light focused at the location identified in (c) step (b) whereupon a solid plug is formed from the solidifiable material at the location; and
